6850 EL COLEGIO RD, Isla Vista, CA 93106 | (805)951-7638 | an_xie@ucsb.edu

EDUCATION

University of California, Santa Barbara

Sep 2023 – June 2027

Bachelor of Science in Statistics And Data Science

GPA: 3.74/4.00

Technical skills: Java, Python, Jupyter Notebook, Processing, Adobe Animate, FL Studio

RESEARCH & PROJECT EXPERIENCE

Pembroke College International Pembroke Summer Program

Guangzhou, China

Data Scientist & Researcher

Jun 2024 – Aug 2024

- Conducted a comparative analysis of open printers and print servers across multiple universities (Cambridge, UCSB, UCLA, UCSD) to access intellectual property theft risk
- Worked with professor to define research objectives and identify key research questions on information security, focusing on the vulnerabilities of exposed printers and print servers
- Utilized the Shodan search engine to collect data related to the number of printers exposed to the public network and conduct an analysis of the network device vulnerabilities with the universities population size to assess potential risk of intellectual property infringement

Analysis of eSports Event Investment and Company Revenue

Guangzhou, China

Data Scientist & Researcher

Aug 2023 – Present

- Researched the impact of eSports events as a marketing tool, investigating how events can serve as promotional channels for brands while increasing company revenue
- Performed analysis on event attendance, sponsorship amounts, and company revenue using Excel to assess the balance between event costs and potential return from increased engagement and brand awareness
- Synthesized research findings into a report, employed interactive plots and graphs to present results, highlighting the strategic implications for companies investing in events

Analysis of Preferences for 2D Virtual Idols Among Adolescents

Guangzhou, China

Quantitative Researcher

Jan 2022 – Oct 2022

- Conducted psychological attribution analysis on the consumption preferences of Hatsune Miku enthusiasts within the 2D and virtual idol industries to explore audience characteristics of the virtual idol industry
- Designed and distributed an online survey through Wenjuanxing, WeChat, and Baidu Tieba, gathering 71 responses to analyze consumer behavior and preferences
- Identified key audience traits, including cultural inclusivity, strong motivation for secondary creation, emotional attachment to virtual 2D characters, and preference for non-mainstream artistic expressions and derivative works

Project: 2D Maze Game Development

Shanghai, China

Software Engineer

Jul 2021 – Aug 2021

- Developed a dynamic 2D maze game using Processing, gaining hands-on experience in game development
- Integrated Undertale's soundtrack and dynamic two-dimensional anime visuals to enhance user engagement, showcasing the final project at an exhibition and receiving positive feedback

Project: "Toilet Revolution" Analysis

Guangzhou, China

Leader & Researcher

Nov 2020 – Mar 2021

- Conducted on-site surveys at three high schools to evaluate restroom cleanliness, gathering 146 responses on hygiene standards and student perceptions
- Analyzed survey results using descriptive statistics and correlation analysis to identify key factors affecting cleanliness, proposing actionable recommendations for improvement
- Led team of 4 to produce a promotional video presenting project's finding and recommendations, aiming to promote positive change within school environments

MUSIC & COMMUNITY

Promoting Japanese virtual music on Bilibili.com

Guangzhou, China

Content Creator

Nov 2021 – Present

- Researched and authored nine columns on modern Japanese virtual music, covering the evolution of virtual singer culture, notable artists, and music producers, aiming to promoting cross-cultural appreciation for niche music genres (30K+ reads)
