Internship Experience

Colton Alexander

Due Diligence Analyst

Remote

May 2023 - Jul 2023

- Conducted market research on the environmental industry through analyzing macro trends using Google Analytics and profiling key players to identify potential investment opportunities
- Sourced over 50 companies using FactSet and performed thorough financial analysis on each of them to find potential investment opportunity
- Collected and verified data on firms' financial statements, ESG reports, company management, ensuring data accuracy through cross-referencing multiple resources
- Predicted the firms' potential growth by analyzing data from Trading Economics and calculating the expected ROI to identify 3 potential investment targets
- Compiled research findings into a concise and actionable investment deck, supporting informed decision-making

Old Chengdu Café

Market Analyst

Syracuse, NY

Nov 2022 - Apr 2023

- Conducted market analysis on top 10 competitors to identify market gaps, including customer preferences, peak meal time patterns in surrounding areas and optimal delivery routes
- Utilized data-driven insights to streamline operational processes, leading to increased efficiency
- Communicated directly with customers, addressing customer complaints and needs to improve customer satisfaction

Project Experience

Gentech Lean Six Sigma Optimization Project

Clinical Associate Professor, **Brett Duarte**, Arizona State University

Tempe, AZ

Aug 2024 - Dec 2024

- Analyzed 75,000 transaction and assessed cycle times across regions (e.g., South America, Japan) and product lines to identify inefficiencies and propose resource optimization
- Achieved a Sigma Level of 1.08 and proposed strategies to reduce cycle times, targeting a 3+ Sigma Level
- Identified bottlenecks in ZQT6 (7.43 days) and ZQT8 (6.53 days) using process data, recommending workflow improvements to streamline approval processes
- Tools: Minitab, Excel, Six Sigma DMAIC, Root Cause Analysis (RCA)

Starbucks Customer Behavior Analysis - SQL Research Project

Project Leader and Presenter

Remote

Mar 2024- Sep 2024

- Led a team of data analysts to preprocess and analyze customer data, identifying trends and providing insights
- Implementing SQL queries to segment customer demographics, evaluate offer completion rates, and pinpoint engagement factors, and provided clear visualizations and data interpretations to ensure the audience understood complex data results
- Delivered a final presentation showcasing a 35% increase in offer completion among customers aged 30-40
